

Cairngorms National Park: Adventure Days & Holidays

Active Outdoor Pursuits are set to launch their new Adventure days and Holidays at the Visit Scotland Expo in April.

The new adventure days and holidays explore the Cairngorms National Park by foot, bike, boat and climbing and will be the key focus for this year's Summer adventure campaign to encourage visitors to visit Scotland and explore the National Park.

The days are tailored to suit the abilities of all customers and are able to offer different adventure levels for those looking for a relaxed day to explore the park up to those looking for a full-on adventure experience with overnight camping, scrambling and hiking to the mountain peaks.

The new adventure days will run alongside the multi adventure holidays exploring the whole of Scotland. All adventure holidays and activity days are developed through listening to what the customers want, where they wish to visit and combining these to create the experience of a lifetime during their time visiting Scotland and within the National Park. Those booking on for an adventure day and/or holiday will discover the culture, history, nature and beauty of Scotland.

"I had the best, most amazing six days! thank you so much for such an amazing experience! Some tough, physically demanding challenges that makes it all the more adventurous! Wonderful food, awesome people & such a fantastic mood/atmosphere. Thanks heaps for everything, you guys are amazing!"

Myf Jones, July 16 – West Highland Way, Multi Adventure Journey

Notes to Editor
