Introducing Ness Walk
New five-star hotel shines the spotlight on Inverness

Tucked away on the banks of the beautiful River Ness, Ness Walk is the latest hotel offering in the thriving city of Inverness. Originally a 19th century house, the Grade B listed building has been lovingly restored and transformed into the first luxury five-star hotel in the Scottish Highlands.

Owned by the Kingsmills Hotel Group, Ness Walk is due to open this summer and offers a tranquil retreat while still within easy reach of the city centre - making it the perfect destination for relaxing romantic breaks and Scottish getaways.

With 47 rooms, an elegant lounge and private function space, the hotel includes many original period features of the historic building alongside a brand new contemporary wing, creating the perfect balance of past and present. Each bedroom has been thoughtfully designed to make the best use of space and natural light, with stunning views over the hotel's historic gardens, court yard and the neighbouring riverbank.

Ness Walk will also be home to Torrish; a fine dining restaurant offering the very best locally sourced produce and ingredients. Providing guests with a first-class dining experience in stunning surroundings, Torrish will serve up a seasonal selection of the finest Scottish meats and seafood, all with a contemporary culinary twist.

Promising exceptional service from the moment you arrive, Ness Walk is set to offer guests an unforgettable experience.
